

Date: 05.06.25	Task 7
	Identify and Remove Suspicious Browser Extensions
Name: Riddhisa Ranganathan	

I removed an extension I no longer used. For safety reasons the name of the extension has not been mentioned here.

Before removing:

Task	Memory footprint	CPU
• W Tab: Computer securit	84,788K	0.1

After removing:

• W Tab: Computer securit	81,824K	0.0
---------------------------	---------	-----

It can be seen that after removing the extension, the memory used has been reduced by 2,964K and the CPU utilization has dropped from 0.1% to 0.0% indicating a performance increment due to removal of the unused extension.
